

COROLLA CROSS

Move your world

Where Power Meets Efficiency

Introducing the all-new Toyota Corolla Cross Hybrid — where bold capability meets refined hybrid performance. Powered by Toyota's self-charging full hybrid system, it delivers smooth acceleration, intelligent fuel efficiency, and confident control for every journey.

Whether you're navigating everyday city drives or chasing adventures beyond the horizon, the Corolla Cross Hybrid is engineered to move with you — powerfully, purposefully, and effortlessly.

Powerfully Composed

Built for more than the daily drive, the Corolla Cross Hybrid blends athletic performance with refined control. Its advanced hybrid powertrain responds with instant acceleration, while precision-tuned suspension delivers a ride that's both agile and composed.

Hybrid Power, Refined

The Corolla Cross Hybrid combines a 2.0-litre Dynamic Force engine with Toyota's 5th Gen Hybrid System to deliver a total output of 195hp. Instant torque and smooth acceleration (0–100km/h in 7.7s) meet exceptional fuel efficiency at just 4.8L/100km giving you the best of both power and practicality.

Stable Driving Comfort

Designed for handling stability and ride comfort, the Corolla Cross Hybrid's rear double wishbone suspension smooths out uneven roads while keeping the drive composed with every turn.

Small Turning Radius

Designed with everyday practicality in mind, the Corolla Cross Hybrid's compact turning radius makes tight manoeuvres easy. From narrow carparks to crowded city streets, you'll enjoy confident handling wherever you go.

Bold, Distinctive, Stylish

The Corolla Cross Hybrid stands tall with its elevated SUV stance, bold silhouette and dynamic contours. Its design brings together the confidence of urban sophistication with the readiness of rugged adventure, offering a distinctive presence wherever you go.

This is an SUV built to take you places, and it does so with undeniable performance.

A Front That Leads

The wide centre grille features a unique gradating pattern. Openings flow from the centre and close as they fade towards the edges. This creates a strong, sculpted look that leads the Corolla Cross' confident front profile.

Front Signature

Up front, the LED headlamps are cleanly integrated with Daytime Running Lights, Clearance Lamps and Signal Lights. This cohesive design creates a confident, recognisable signature that enhances road presence and visibility.

Rear Design

With the High Mount Stop Lamp, Back-Up Light and Fog Lamp seamlessly built in, the rear lighting completes the vehicle's bold stance while ensuring you're clearly seen from all sides.

Ready from the Ground Up

The 18" alloy rims do more than complete the look — they elevate it. With a bold, purposeful design, they give the Corolla Cross Hybrid its athletic posture and confident road presence. But their appeal goes beyond aesthetics.

Designed Around You

Where true comfort meets intuitive design.

Step inside and experience a cabin
built with your comfort in mind.

Cooling Comfort for Everyone

The **dual-zone automatic air-conditioning** system with **pollen filter** ensures that both driver and passengers enjoy their ideal climate — clean, fresh, and perfectly tuned to your liking.

LED Front Door Trim Illumination

By day or night, subtle lighting adds a touch of ambient sophistication, creating a welcoming environment for every drive.

12.3-inch Digital Instrument Cluster

At the heart of the cockpit, advanced technology brings vital driving information to life in crisp detail — customisable to suit your preference and your journey.

A Touch of Class In An SUV

Crafted for those who seek sophistication in every journey, the Corolla Cross redefines comfort with precision-engineered luxury and thoughtful design.

Tailored to Feel Right

The combination of leather and fabric upholstery offers the best of both worlds — a premium feel with everyday practicality. It's soft to the touch, durable by design, and tailored to elevate every journey.

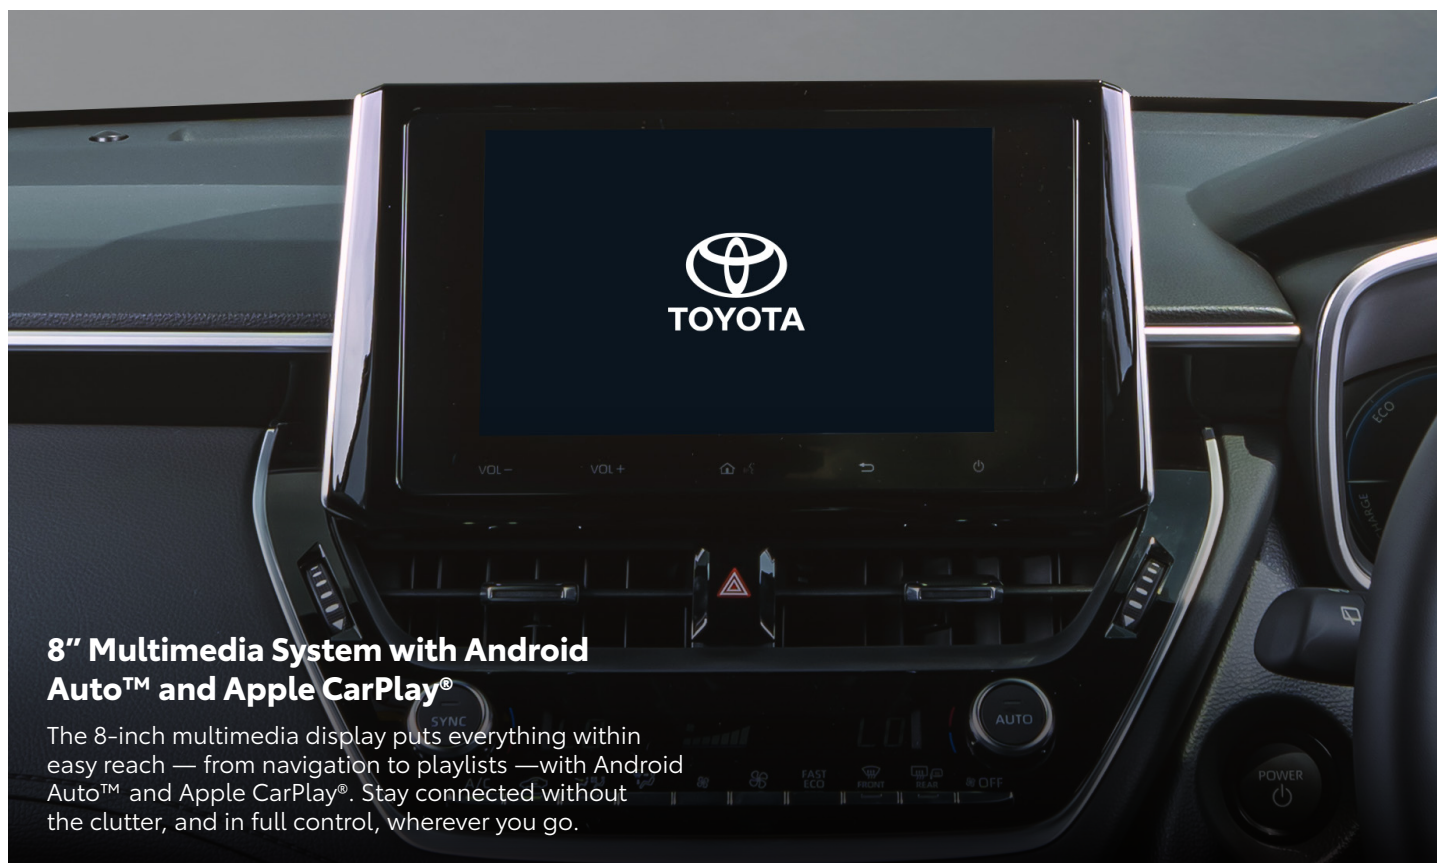

Central Convenience, Driving Comfort

The centre armrest in the Corolla Cross is designed to support the driver, with convenient storage space and a sliding console that moves forward for added driving comfort.

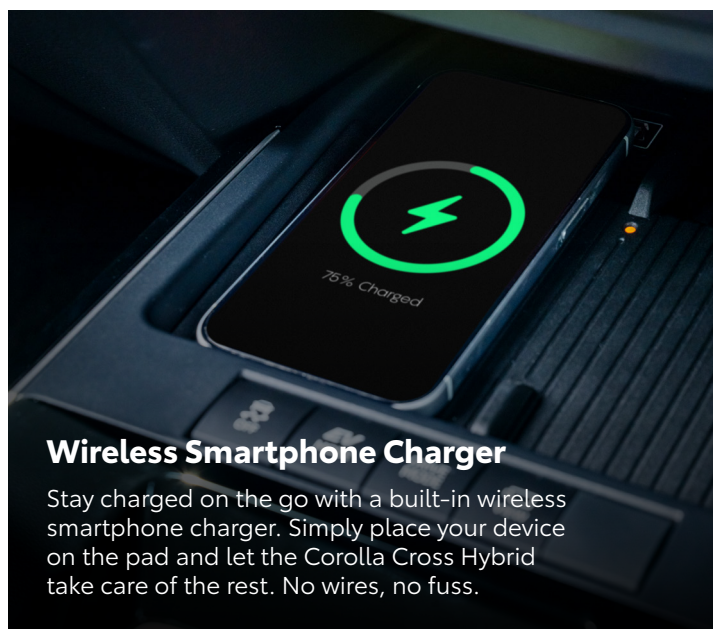

The World Within Reach

Experience the comfort of convenience at your fingertips.

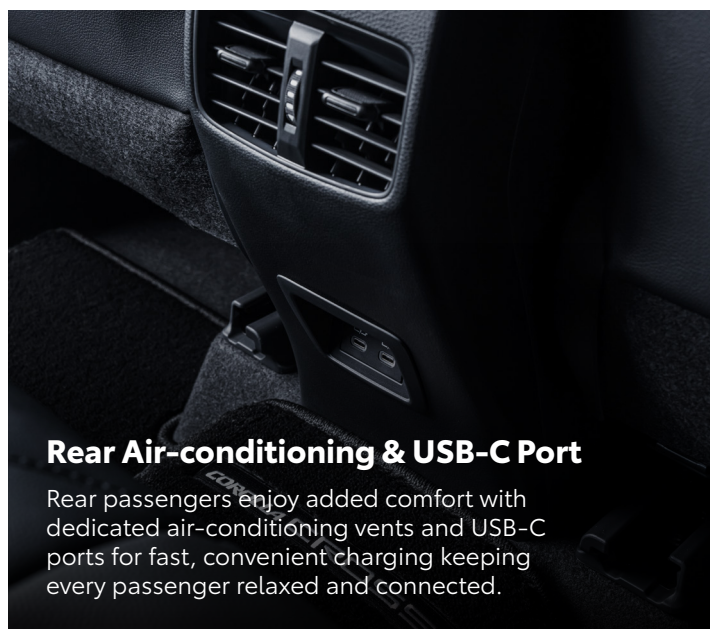

8" Multimedia System with Android Auto™ and Apple CarPlay®

The 8-inch multimedia display puts everything within easy reach — from navigation to playlists — with Android Auto™ and Apple CarPlay®. Stay connected without the clutter, and in full control, wherever you go.

Wireless Smartphone Charger

Stay charged on the go with a built-in wireless smartphone charger. Simply place your device on the pad and let the Corolla Cross Hybrid take care of the rest. No wires, no fuss.

Rear Air-conditioning & USB-C Port

Rear passengers enjoy added comfort with dedicated air-conditioning vents and USB-C ports for fast, convenient charging keeping every passenger relaxed and connected.

Effortless Convenience

Smart space solutions that adapt to your day, no matter how or where you spend it.

Ample Boot Space

The Corolla Cross Hybrid makes room for it all with flexible seating and ample boot space. Plus, the Power Back Door with height adjustment and memory function makes loading up easier than ever.

Flexible Backseats

Need more room? The rear seats fold flat to create an extended cargo space, giving you the flexibility to carry larger or longer items.

Toyota Self-Charging Full Hybrid

The self-charging Corolla Cross Hybrid is powered by Toyota's latest 5th Gen Hybrid System, delivering smoother acceleration, lower fuel consumption, and reduced emissions.

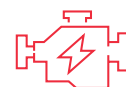

Always Charging, Never Plugged In

Toyota's self-charging hybrid system captures energy as you drive and uses it to recharge the battery. No cables. No need to plug in.

No Extra Maintenance Needed

Two power sources, one simple routine. The Corolla Cross Hybrid doesn't require additional servicing beyond a regular petrol vehicle.

More Distance, Less Time Refuelling

With outstanding fuel efficiency of just 4.8L/100km plus a short refuel time, you enjoy longer journeys and less minutes spent stopped.

Smooth Power, Instantly Delivered

From standstill to flow, the Corolla Cross Hybrid accelerates with ease.

In stop-start traffic, it takes off seamlessly — giving you instant, quiet torque without the usual lag.

Drive Cleaner, Go Further

With every trip, you're making a more sustainable choice. The Corolla Cross Hybrid produces lower CO2 emissions, helping to reduce your environmental footprint.

Quieter Ride

Inside the Corolla Cross Hybrid, serenity comes standard. The hybrid system runs with minimal noise and vibration, delivering a smoother, quieter experience.

Safety That Travels With You

No matter the destination, your sense of security should never take a back seat. The Corolla Cross Hybrid comes equipped with Toyota Safety Sense 3.0, the latest suite of advanced safety features.

Toyota
Safety
Sense

Pre-Collision System (PCS)

If a potential frontal collision is detected, PCS alerts you to react and can apply emergency braking to help avoid or reduce the severity of impact.

Road Sign Assist (RSA)

RSA reads road signs such as speed limits and displays them clearly on your instrument panel. When paired with DRCC, it can help regulate your speed accordingly.

Dynamic Radar Cruise Control (DRCC) (All Speed)

DRCC maintains a safe following distance from the vehicle ahead by automatically adjusting your speed — perfect for smooth, stress-free cruising at any speed.

Lane Tracing Assist (LTA)

Working alongside DRCC, LTA helps keep your vehicle centered in its lane by providing gentle steering assistance — especially useful on longer drives.

Lane Departure Alert (LDA)

LDA keeps you on track by detecting unintended lane departure. If your vehicle starts to drift, it alerts you to take corrective action.

Automatic High Beam (AHB)

For better night-time visibility, AHB automatically switches between high and low beams based on oncoming traffic and lighting conditions.

Awareness, Built In

From tight spaces to fast-moving lanes, the Corolla Cross Hybrid supports your every move with intelligent safety technology.

Parking Support Brake (PKSB)

When reversing or moving slowly, PKSB senses potential collisions with nearby vehicles or obstacles, helping prevent mishaps or reduce impact at low speeds.

360° Panoramic View Monitor (PVM)

With a comprehensive 360° overhead view, the Panoramic View Monitor simplifies parking and tight maneuvers by giving you a clear visual of your surroundings.

Blind Spot Monitor (BSM)

Blind Spot Monitor alerts you to vehicles entering your blind spots during lane changes—keeping you informed before you make a move and enhancing safety when swapping lanes.

8x SRS Airbags

Equipped with eight strategically placed airbags the Corolla Cross Hybrid is designed to help protect all occupants in the event of a collision.

Specifications & Features

DIMENSIONS AND WEIGHTS
