

CAMRY

Move your world

The Look of Endless Possibilities

Introducing the new Toyota Camry, the latest iteration in our long history of automotive excellence. Meticulously constructed to create a seamless union of innovative design and engineering, the new Camry sets new standards of excellence, combining premium quality and exceptional levels of craftsmanship with breathtaking performance.

A Truly Captivating Exterior

Innovation meets elegance in every detail on the new Camry. A striking new design with meticulously crafted upper and lower grilles exudes sophistication and style, with the innovative design of the new lower grille creating a functional air curtain, enhancing aerodynamic performance and efficiency.

A Dynamic New Design From End to End

The new Camry captivates from every angle. At the nose, the signature hammerhead light design not only illuminates the road ahead but also accentuates the Camry's sleek lines, creating a seamless blend of form and function. This design language extends throughout the vehicle, helping to deliver a cohesive and modern aesthetic that sets the Camry apart from the rest.

Slim Three-Dimensional Linear Lamps

The Camry is sleek and sharp from the rear, with these striking lamps further accentuating its updated design—ensuring it leaves a lasting impression.

A Sporty Silhouette

The sleek Camry commands attention with its bold design, exuding athleticism and power to captivate onlookers as a true automotive masterpiece.

18" Alloy Rims

The meticulously crafted rims elevate the Camry's allure with a sleek and commanding appearance that exudes luxury, complementing its sporty aesthetic.

Immerse Yourself in Luxury

Experience the ultimate driver-centric design with the new Toyota Camry's elegant yet dynamic interior. From the moment you take the driver's seat, the feeling of encompassing control washes over you, as every detail is crafted with precision to elevate the experience for both driver and passengers.

These exquisite details merge form and function into a seamless whole, ensuring every drive is both thrilling and effortlessly stylish.

12.3" Multi-Info Display

All the data you need on every drive—available at a glance, and easily accessible on the 12.3" multi-info display.

Heads-Up Display

In addition, the Camry's heads-up display gives you access to time-sensitive information, without needing to take your eyes off the road.

Rear Seat Control

The new Camry isn't just a driver's dream. The rear passengers also have control over their journey, with the ability to adjust their environment at the touch of a button, including reclining their seats, regulating the temperature of the air conditioning, changing audio channels and volume, or even raising or lowering the rear sunshade.

Air-conditioning with Nanoe™ X Ion Generator

Enjoy every journey in perfect comfort that extends beyond the seats. Dual-zone air conditioning enables both front seat occupants to tailor the temperature to suit their individual preferences. And to ensure the air is as clean as it is cool, the nanoe™ X system constantly cleans it, suppressing allergens and odours.

9 Speaker JBL® Sound System

Ensure your drives always have a soundtrack that's a delight to listen to, with the perfect balance of bass and treble provided by the 9-speaker JBL system.

Panoramic Sun Roof

The panoramic sun roof lets in natural light and allows you to take in the beauty of the world around you, while its powered electric shades can be adjusted to provide your desired level of light. This is managed from the thoughtfully designed overhead console which also provides you with control over the cabin lighting and the opening and closing of the roof itself.

Genuine Leather Upholstery with Ventilated Front Seats

Both driver and passengers benefit from the unrivalled comfort of genuine leather upholstery. The front seats add an extra layer of luxury with ventilation and heating, making every drive a luxurious sensory experience.

Roller Shades

Further tailor every journey to match your own preferences with the new Camry's roller sunshades. Seamlessly integrated into the rear passenger windows, these innovative shades can be easily raised to provide you with the privacy, comfort, and protection you deserve.

Innovative Technology to Invigorate Every Drive

Smart Wing Mirrors

In addition to folding neatly away to minimise damage while parked, the wing mirrors are heated in order to clear away any fogging or misting. They also tilt downwards when reverse gear is engaged, enabling you to reverse with improved vision.

Digital Rear View Mirror

The new Camry replaces the traditional rear-view mirror with a high-quality digital camera, ensuring an unimpeded view behind you—even when the back of your car is full. Now, every journey can be made with greater reassurance.

Toyota Voice Agent

Introducing a safer, more intuitive way to control your in-car environment. Simply say "Hey Toyota" or "OK Toyota" and you can use voice commands to adjust the aircon temperature, fan speed, or audio controls. Now, you can manage your drive more effectively—without having to take your hands off the wheel, or eyes off the road.

Wireless Charger

Staying ready for whatever your digital day has in store couldn't be easier. Simply put your Qi-compatible smartphone on the wireless charging pad and let the Camry handle the charging while you enjoy the driving.

12.3" Infotainment Display

Fast, informative and entertaining, this 12.3" Infotainment Display enables you to take control of everything at the tap of a finger. Fully equipped with Android Auto™ and wireless Apple CarPlay®, there's no better way to integrate your digital life with your driving life.

Hybrid Power, Seamless Performance

The new Camry harnesses innovative technologies to recharge its hybrid battery while on the move. By utilising cutting-edge features such as regenerative braking, the vehicle captures and converts energy into electricity, which is then stored in the battery. This advanced system ensures the Camry remains efficient and eco-friendly, as it harnesses and maximises energy on every drive.

5th-Generation Hybrid System

Equipped with the latest hybrid system, the Camry boasts a powerful 2.5L Hybrid Electric Vehicle (HEV) engine capable of 227 combined horsepower, offering dynamic performance for an exhilarating driving experience.

Fuel Efficiency of 5.1L/100km

Embrace the economics of the new Camry, where efficient performance meets unparalleled value, offering impressive fuel consumption of 5.1L/100km.

Lower CO2 Emissions

The hybrid system allows every drive to not only be smoother, but to complement an eco-lifestyle and contribute to a greener future with reduced CO2 emissions.

Exceptionally Quiet

The Camry is exceptionally peaceful and quiet thanks to its near-noiseless hybrid engine—enabling you to truly enjoy an atmosphere where serenity reigns supreme.

No Added Maintenance

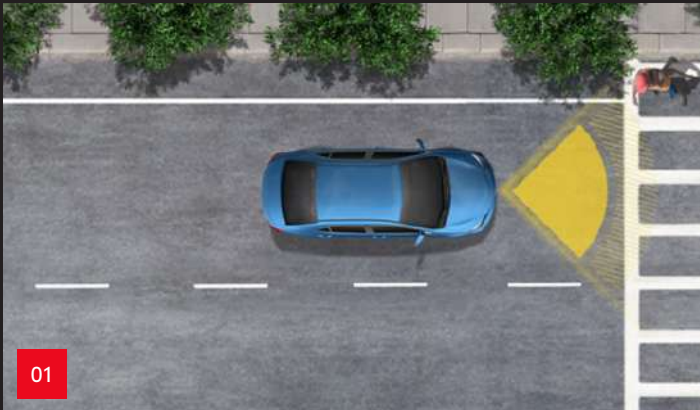

Even with a hybrid power source, there's no additional maintenance required for the Camry—ensuring you won't encounter any added disruptions to your travels.

Toyota
Safety
Sense

Toyota Safety Sense (TSS)

In the new Toyota Camry, you'll experience unparalleled safety on the road with Toyota Safety Sense—a suite of advanced safety features that works in the background to provide an additional layer of protection, so you can cruise confidently on every journey.

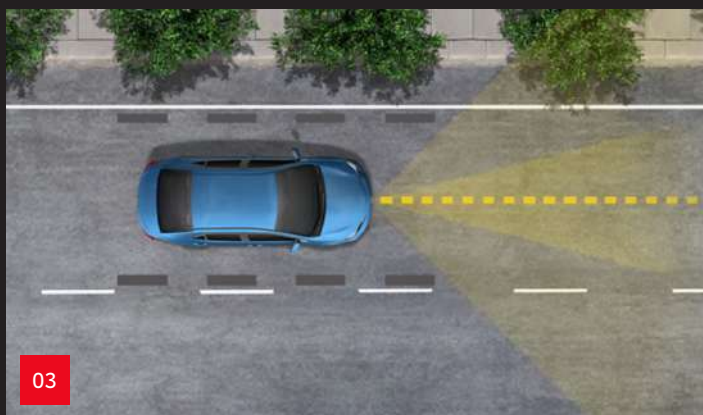

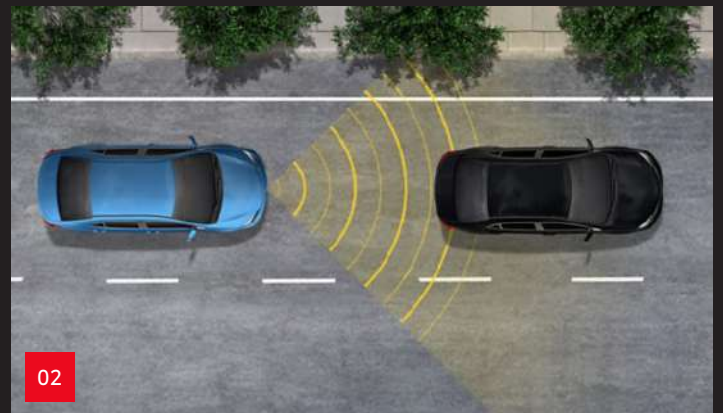

01. Pre-Collision System (PCS)

Our safety systems work to stay one step ahead in protecting you and your loved ones. This feature anticipates potential collisions using advanced sensors, offering timely alerts and, if necessary, applying brakes automatically.

02. Dynamic Radar Cruise Control (DRCC)

This intelligent system maintains a preset distance from the vehicle ahead, adjusting speed autonomously. It ensures a smooth, stress-free ride, allowing you to focus on the journey, not just the destination.

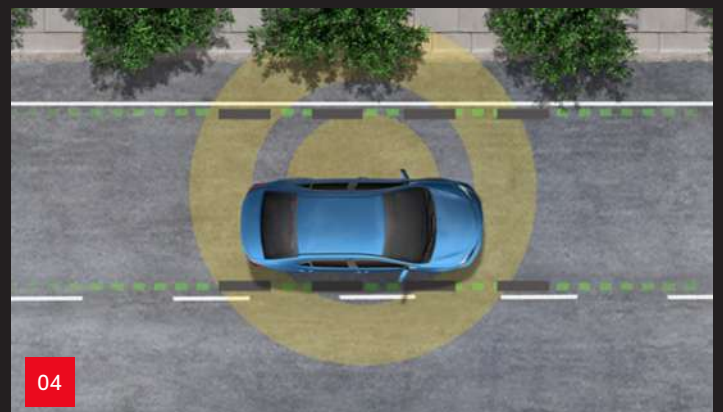

03. Lane Tracing Assist (LTA)

When lane markers are visible, this feature uses the lines on the road and the vehicles ahead of you to help keep the car centred and in its lane.

04. Lane Departure Alert (LDA)

This system identifies visible lane markings and detects inadvertent lane departures, issuing audible and visual warnings to notify the driver.

Additional Safety Features

8 SRS AIRBAGS

In the event of a collision, these airbags keep any impact to you and your passengers to a minimum. Strategically placed throughout the cabin, passengers are enveloped in a protective cocoon—ensuring that in every journey, they're embraced by uncompromised safety.

Blind Spot Monitor System with Safe Exit Assist

No more second-guessing. This vigilant assistant alerts you about vehicles lurking in your blind spots, ensuring safer lane changes. Drive with heightened awareness and confidence, every mile of the way.

Road Sign Assist

Utilising a front-facing camera to monitor the road signs ahead, this feature helps ensure drivers are aware of useful and important road information as they drive.

360 Panoramic Rear View Monitor

Improve parking and maneuvering in narrow spaces for smoother navigation, providing drivers with greater visibility and control while operating their vehicle.

Specifications & Features

DIMENSIONS AND WEIGHTS

TOYOTA CAMRY HEV ELEGANCE

Length / Width / Height	mm	4,920 / 1,840 / 1,455
