

COROLLA CROSS

Move your world

Cross Boundaries

Whether you are crossing into the next professional milestone or up for the next life adventure, looking for reliability or chasing after the next new thing, feeling safe on the road or pursuing innovation for every route, you want a car that crosses these boundaries and moves worlds with you. A first-ever SUV in the Corolla family powered by a self-charging hybrid engine, the Toyota Corolla Cross does just that.

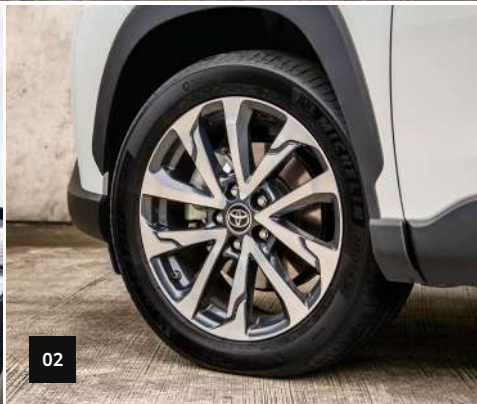

Make a **Statement**

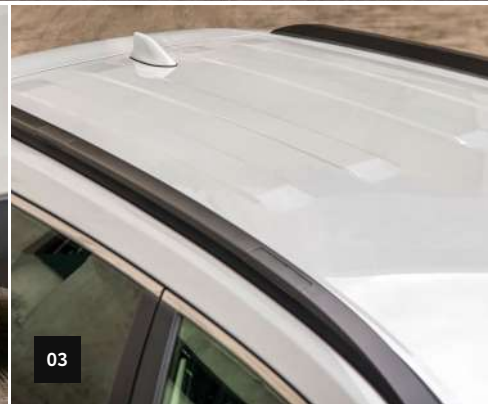

Unmistakably sporting the Corolla DNA that you have come to love, the Corolla Cross commands a distinctive presence with its modern silhouette and sleek contours. Accentuated with a black chrome and silver double trapezoid grille, the powerful front composure is designed to make a statement and subtlety is not in the equation.

01

02

03

01. High Grade LED Headlamps

The road ahead is made brighter and safer with the striking High Grade LED Daytime Running Lights that are equipped with quad-LED sequential indicators.

02. 18" Aluminium Rims

The Corolla Cross bold look is evident down to the details with 18-inch aluminium rims that are bright machined and dark gray metallic.

03. Fenders & Roof Rails

Playing up on the Corolla Cross athletic stance are the sporty flared fenders and roof rails that are ready for your adventures anytime.

Always Room for More

The Corolla Cross gives you more space on the outside to navigate and more versatility inside to create. It is your space to be, so fill it to your liking or leave yourself with room for more.

01

02

03

01. Power Back-Door with Height Adjustment Function

The power boot's built-in memory function allows you to program a pre-set height for the boot door, making access easy for just about everyone.

02. 425L Boot Space with Tonneau Cover

No matter your lifestyle and needs, you will find the capacious cargo space fit for your everyday use. Just load up and go.

03. 60:40 Folding Rear Seats

The space is yours to create. Choose to fold either side of the rear seats, or both, to make room for everything you need for your journey.

In for a Ride

The Corolla Cross is designed to please and comfort is key. From the spaciousness of the cabin to its satin finishing and LED front door trim illumination, you will find that style and ride experience are never compromised.

01

02

01. Dual Zone Aircon

While you and your passenger fine-tune your desired in-car climate, know that the pollen filter keeps the air clean and fresh.

02. Rear Aircon Vents

We got your back. Rear aircon vents maximise circulation and help to cool the cabin quicker.

Amp it Up

Amp up your drive wherever you go with purposeful and intuitive technologies. Everything you need is within reach and optimally positioned to your convenience so that you can focus on the drive while having access to the controls.

01. 12.3" Multi-Info Display

Feel at total ease in the cockpit with an easy-to-read digital display that houses the key driving information you need while keeping your eyes on the road.

02. 8" Touch Screen Multimedia System

The touchscreen display, complete with Apple CarPlay® and Android Auto™, lets you set the mood right with your favourite songs and stay connected on the go.

03. Wireless Charger

Juice up your phone by placing it on the wireless charging pad. It is that simple with absolutely no charging cable or plugging in needed.

Mighty from the Get-Go

It's sporty. It's sophisticated. The Corolla Cross is made to cross boundaries. Engage the engine and feel the power, agility, and smooth control it gives. You are ready for the road.

2.0L DYNAMIC FORCE ENGINE

Fun to drive is an understatement when the Corolla Cross is powered by the Dynamic Force four-cylinder, 2.0-litre DOHC 16-valve with Dual Variable Valve Timing and an intelligent (VVT-i) engine that results in a punchy 196hp horsepower.

LATEST **5TH GEN TOYOTA** **HYBRID SYSTEM**

Your self-charging ride delivers instantaneous torque and seamless acceleration at 7.7 seconds from 0-100km/h, and an outstanding fuel efficiency of 5.3L/100km.

DOUBLE **WISHBONE** SUSPENSION

Achieving independent movements of the wheels, the Corolla Cross offers better handling for a smoother ride, especially on bumpy roads.

SMALL **TURNING** RADIUS

Cross off your list of carparks to avoid. The small turning radius allows for easy and confident manoeuvrability in the tightest parking spots and city streets.

Toyota Hybrid Electric Vehicle

Power and efficiency combined, hop on the self-charging Corolla Cross and strap in to go and go. With the latest 5th Gen Toyota Hybrid System, experience the joy of greater driving performance and fuel economy while reducing your carbon footprint.

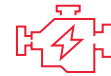

Self-charging

The Toyota hybrid system intelligently utilises the energy as you drive, such as during braking, to recharge the battery, so no external charging is ever needed.

No Additional Maintenance

Fret not as having dual power sources does not mean additional maintenance is needed. In fact, your service schedule remains the same.

Excellent Fuel Economy

Start planning your routes and enjoy greater mileage while saving on fuel costs with a remarkable fuel efficiency of 5.3L/100km.

Seamless Acceleration

Stop-start traffic is never bringing you down when every start is a smooth one as you can take off instantly, even from rest.

Lower CO₂ Emissions

Every time you drive the Corolla Cross Hybrid, you are taking a huge step towards a greener future with reduced vehicular emissions.

Quieter Ride

Take comfort up a notch with a refreshingly quiet drive thanks to the minimal noise and vibration from the hybrid engine.

Safety for All

Wherever a Toyota takes you, peace of mind comes first. The Corolla Cross comes standard with Toyota Safety Sense 3.0 (TSS 3.0), which is Toyota's latest suite of active safety systems so that you and your passengers feel safe on every journey you take.

Pre-Collision System (PCS)

Should a frontal collision be imminent, PCS will warn you to take evasive action and forcibly applies brakes to avoid or reduce the collision damage.

Emergency Steering Assist (ESA)

In the event of a possible collision, ESA provides additional steering torque to prevent your vehicle from leaving its lane.

Acceleration Suppression

Developed to deter accidents, Acceleration Suppression aims to control acceleration due to abnormal operation even when no obstacles are present.

Road Sign Assist (RSA)

RSA helps you comply to speed limits by detecting the signs and linking with DRCC to adjust your vehicle's speed.

Dynamic Radar Cruise Control (DRCC) (All Speed)

DRCC automatically adjusts your vehicle's speed to help you maintain a constant preset distance from the vehicle ahead of you.

Lane Tracing Assist (LTA)

LTA works with DRCC to help keep your vehicle centred in its lane while maintaining a preset distance from preceding vehicles.

Lane Departure Alert (LDA)

Staying in your lane is made easier with LDA which alerts you when it senses that you have veered from your lane.

Automatic High Beam (AHB)

AHB boosts your confidence on your late-night drives by automatically toggling between high and low beams for greater visibility.

8x SRS Airbags

Everyone's safety is paramount. You can rest assured that the front, side, and curtain shield airbags provide further protection for all in the vehicle.

Ready to Assist

Your trusty companion on your journeys, the Corolla Cross is always ready to intuitively and intelligently assist you when you need it. Driving has never been more effortless and delightful.

01

02

03

01. Blind Spot Monitor (BSM)

The BSM keeps you at a safe distance from other vehicles by monitoring your sides and warning you if one gets too close.

02. 360 Panoramic View Monitor (PVM)

Presenting you with a view of your surroundings, specifically the front, sides and back, PVM makes it easy to navigate tight spaces.

03. Parking Support Brake (PKSB)

Take the pressure out of parking. The audible alerts of 4x front and 4x rear parking sonars are here to help you out.
