

# HARRIER

*Move your world*

# Never Stop Wanting More.

The new Toyota Harrier marks another milestone on the journey to true driver-centric luxury. While the Harrier's signature elegant shape is left untouched, the interior boasts innovations that benefit both driver and passengers alike.

Experience the new Harrier. More luxurious and more enticing to drive than ever.

# Captivating **Elegance**

From any angle, the Harrier sets itself apart. Its elegant, sculpted exterior lines are perfectly complemented by a low centre of gravity, a sleek, tapered roofline and dual exhaust pipes.

Projector-style LED headlamps light the way, while a full-width rear LED light bar leaves a lasting impression.

### LED Headlights

Projector LED headlights and LED Daytime Running Lights give the Harrier an iconic look and a captivating presence—day or night.

### LED Taillights

The distinctive full-width rear LED light bar is the perfect summation of the Harrier's modern look.

### Hands-Free Power Back Door with Kick Sensor

Enjoy easy access to the Harrier's boot with a hands-free power back door and memory function. Standard on all variants, the rear door can be operated with a wave of your foot under the rear bumper.

# Revel in **Luxury**

The Harrier's interior tests new boundaries of luxury with its premium materials and exceptional attention to detail. Ambient lighting welcomes you to a driver-focused cockpit, elegantly equipped with impressive technology and sophisticated styling.

### Ambient Lighting

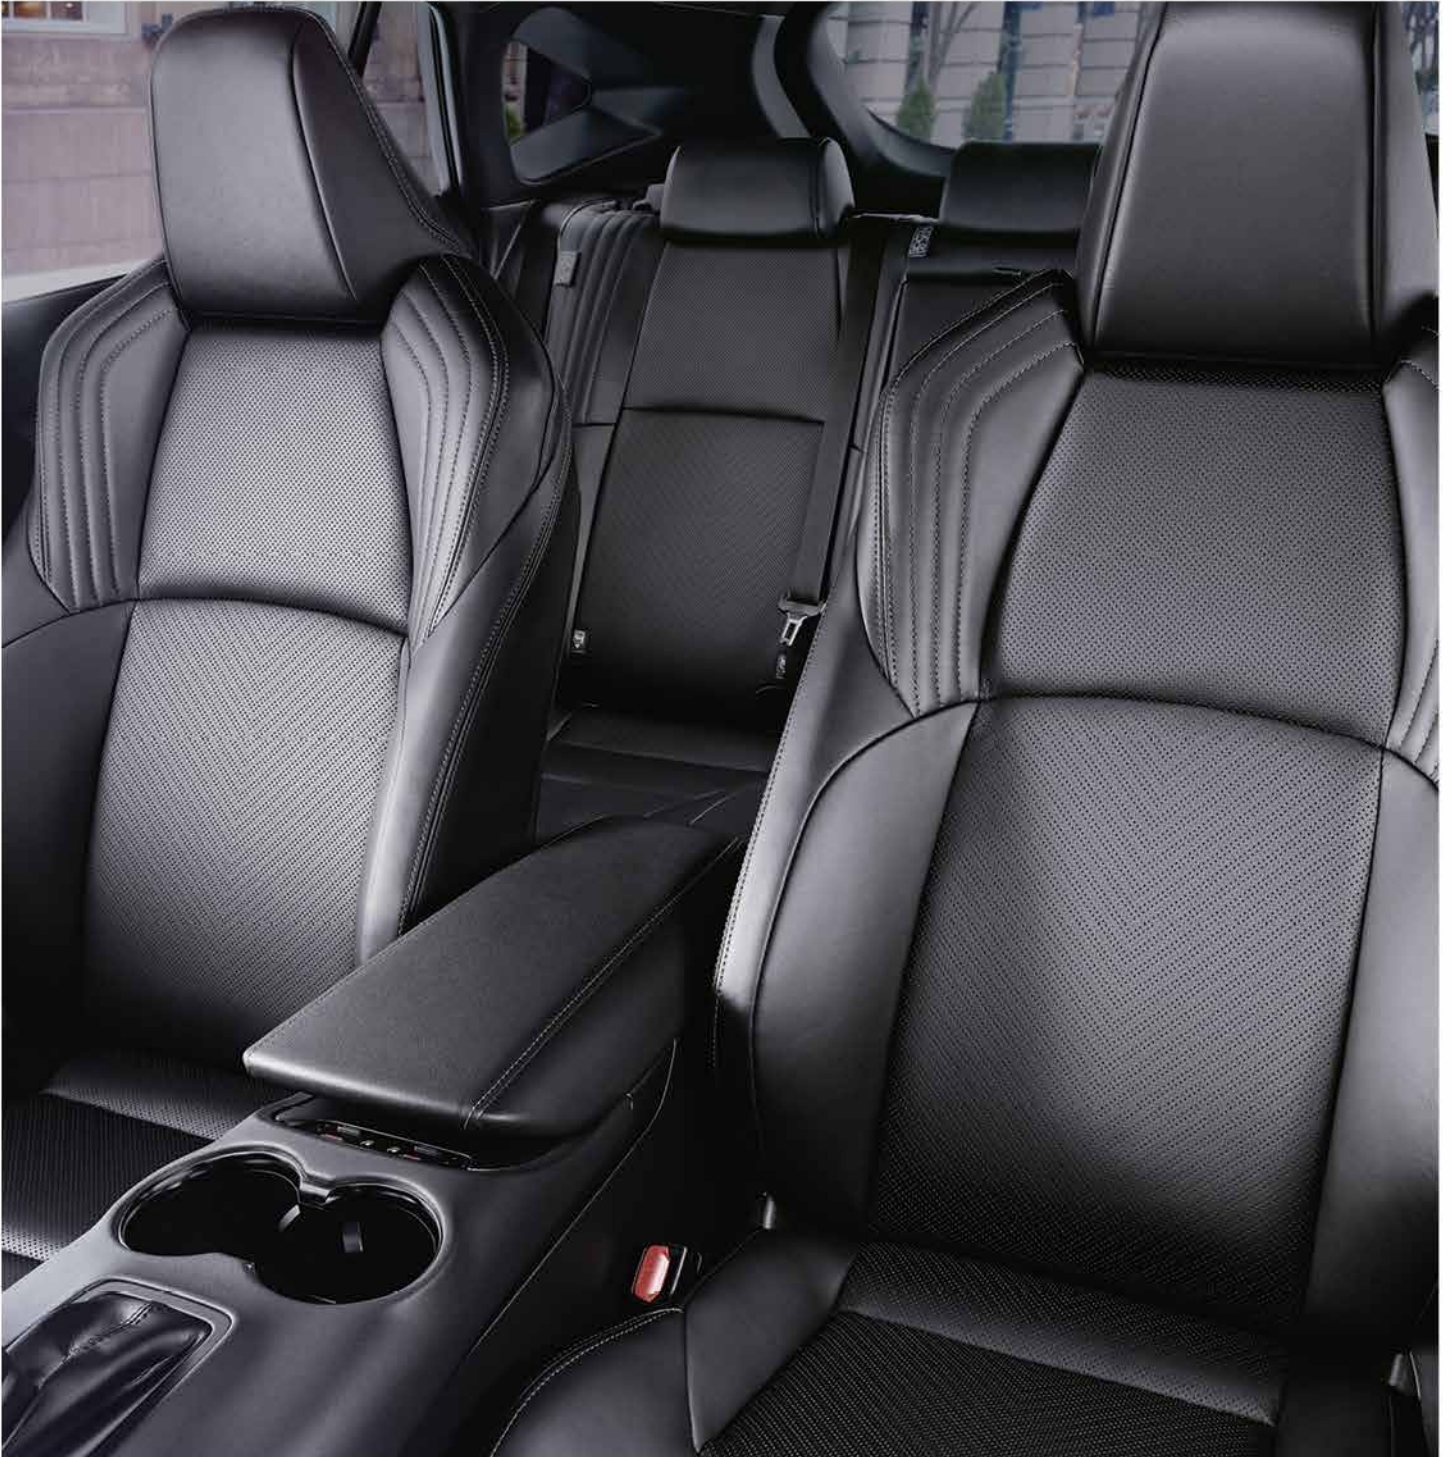

The Harrier knows how to set the mood. After the sun sets, the Harrier's ambient lighting creates a refined cabin atmosphere for late-night rides.

HARRIER

## Quality Crafted Seats

When you're behind the wheel, the Harrier's 8-way power driver's seat with 4-way lumbar support lets you customise your seat to suit you perfectly. The Harrier features ventilated front seats, driver seat memory plus an auto slide away function that automatically moves the seat to the rearmost position to ease your entry and exit. All wrapped in genuine leather, with unique seat bolster stitching for an added touch of style, you'll be ready for whatever the day brings.

### Premium Information Display

The Harrier makes it easy to access the information you need, with a 7" multi-info display, three-dimensional sunburst scale speedometer and a large 10.5" Head-Up Display that gives you access to time-sensitive information without having to take your eyes off the road.

### Dual Zone Auto Aircon with nanoe™ X

Both front-seat occupants can tailor the environment to suit their preference, as the dual-zone air conditioning enables both driver and passenger to select different temperatures. While the nanoe™ X system cleans the air as it cools, suppressing allergens and odours.

### Full-Touchscreen Infotainment System

With wireless Apple CarPlay® and wired Android Auto™, you can connect your mobile device to the Harrier's 8" Infotainment Unit and the soundtrack to every journey will always be the music you love. And with the new built-in navigation function, you can find your way to your destination without needing to connect at all.

### Wireless Charging

In today's always-on world, staying connected is vital. To ensure your favourite mobile device is always fully charged, the Harrier features a conveniently placed wireless charging pad.

### Drive Mode Select

With the simple flick of a switch, you can tailor the Harrier's performance and personality. SPORT mode sharpens throttle response for more high-spirited performance. ECO helps to maximize mileage from the fuel and battery. EV mode (only available on hybrid models) allows electric-only driving at low speeds for short distances. While NORMAL is ideal for everyday driving.

# Roominess & Versatility

The Harrier can easily fit 2 golf bags or 2 suitcases for your weekend get-aways. The 60:40 split-folding rear seats open up even more options for bringing friends or family along for the ride, or carrying the gear you'll need for your latest adventure.

## Ride & Handling

The Harrier's refined and intuitive driving experience starts with its Toyota New Global Architecture platform (TNGA - K). Coupling high strength with a low centre of gravity, the Harrier delivers smooth acceleration and crisp, responsive handling. MacPherson strut suspension up front and multi-link in the rear contribute to the Harrier's smooth ride.

# Toyota Hybrid

The Harrier's next generation Toyota Hybrid System delivers the best of both worlds—impressive power output, coupled with unparalleled fuel efficiency. It's 215 horsepower and 221 Nm of instantaneous torque, every drive. And with the improved regenerative braking system and hybrid power, it's greater fuel economy as well.

## Self-Charging Hybrid

The Harrier's hybrid battery recharges on the go, using innovations like regenerative braking to capture and transform energy into electricity and store it in the battery.

## Class-leading Fuel Economy of 21.7km/L

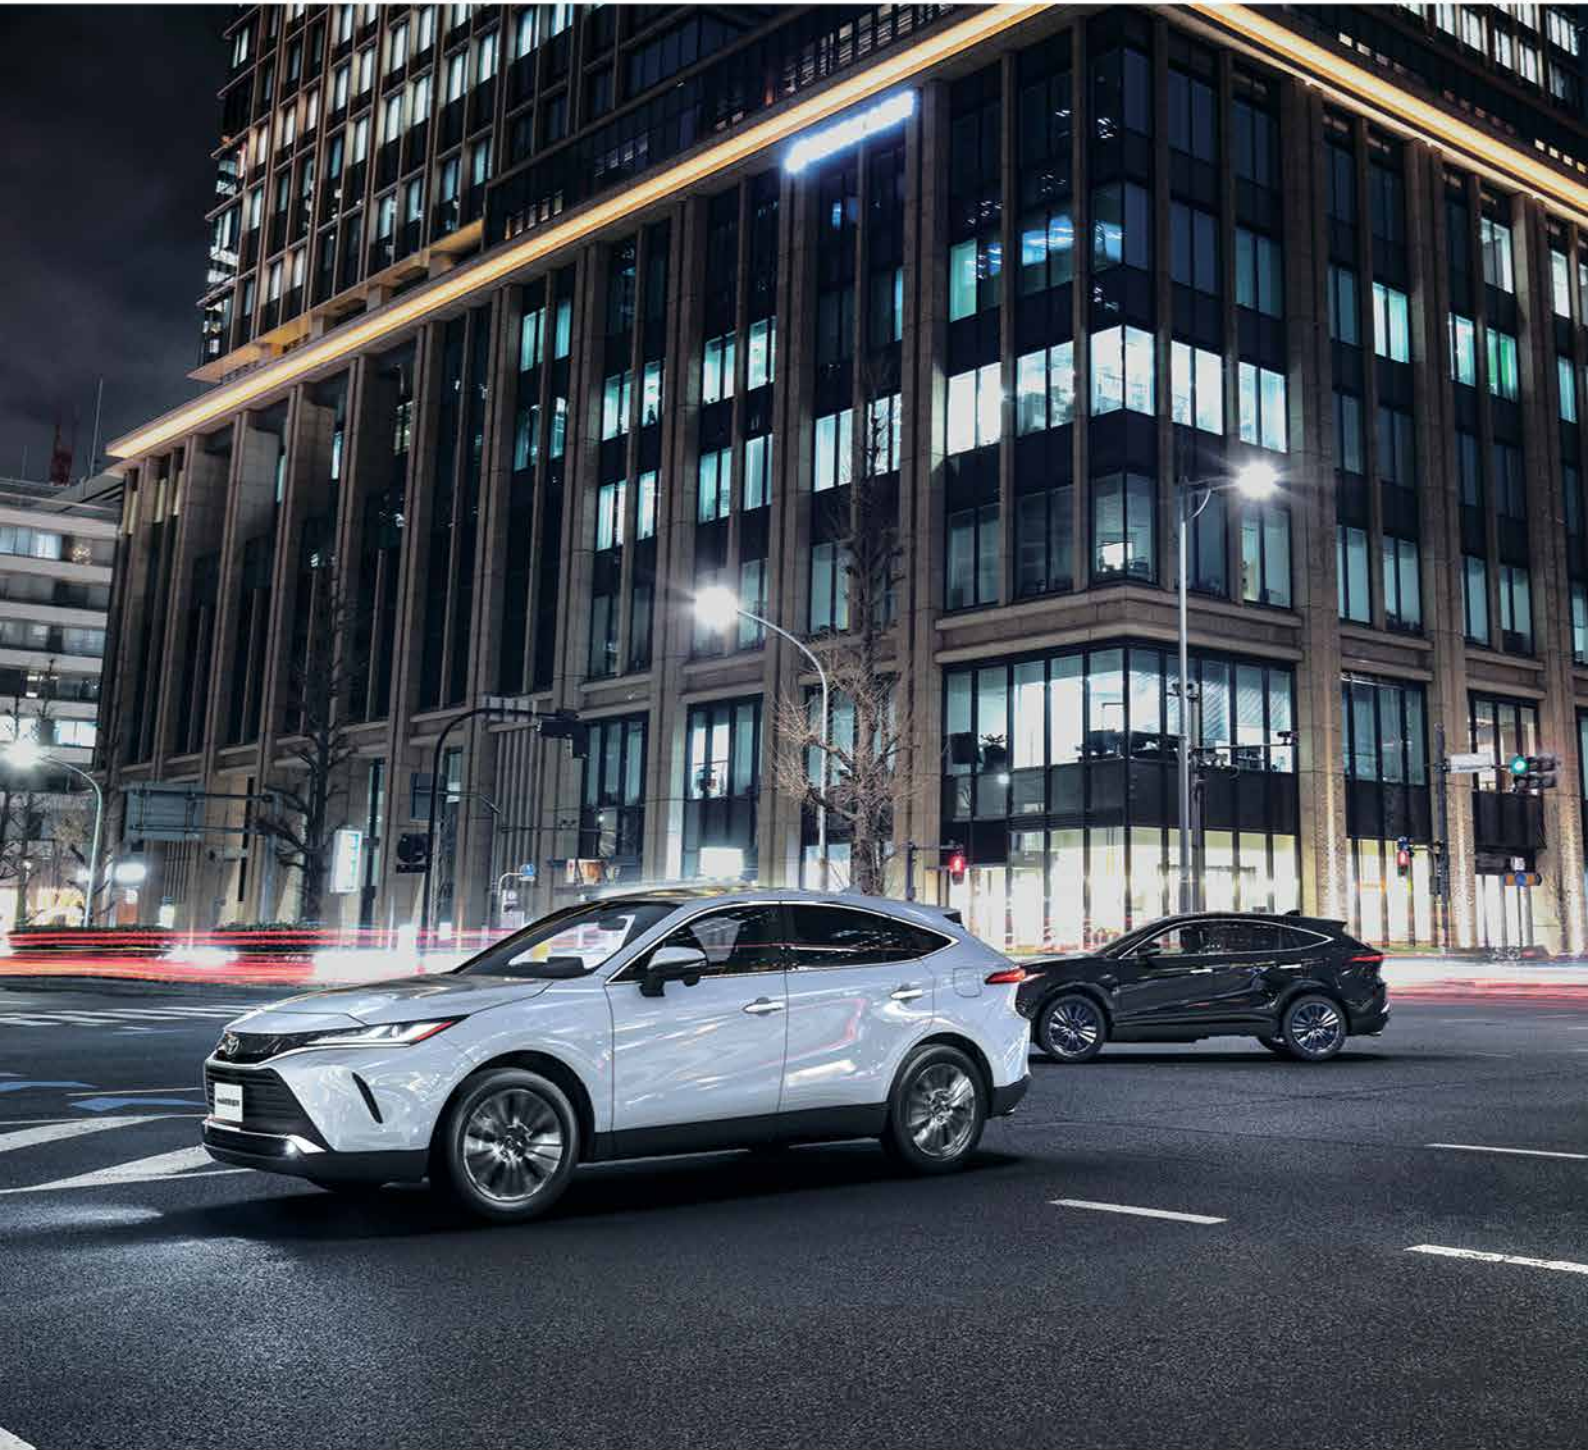

Sound economics always make sense. With the Harrier delivering an astonishing 21.7km per litre, every visit to the petrol pumps is guaranteed to take you further.

## Hybrid Power with Hybrid Synergy Drive

The system combines a 2.5-litre Dynamic Force four-cylinder engine with electric motor to deliver 215 horsepower. The Harrier's engine power is boosted with an Electrical Motor Generator to achieve 221Nm of Instantaneous Torque, achieving smooth acceleration from 0-100km/h in 8.1 seconds.

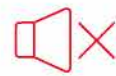

### No Additional Maintenance

Toyota's high-performance batteries are designed to last and require no additional routine maintenance. In fact, they follow the same maintenance schedule as our conventionally powered vehicles.

### Lower CO<sub>2</sub> Emissions

The hybrid system within the Harrier ensures that every journey isn't just smoother, it also generates lower CO<sub>2</sub> emissions, which is why the Harrier has a Vehicle Emissions Scheme (VES) rating of A2.

### Exceptionally Quiet

An interior as luxurious as the Harrier's deserves to be appreciated in peace. The hybrid system ensures that engine noise is reduced to a whisper.

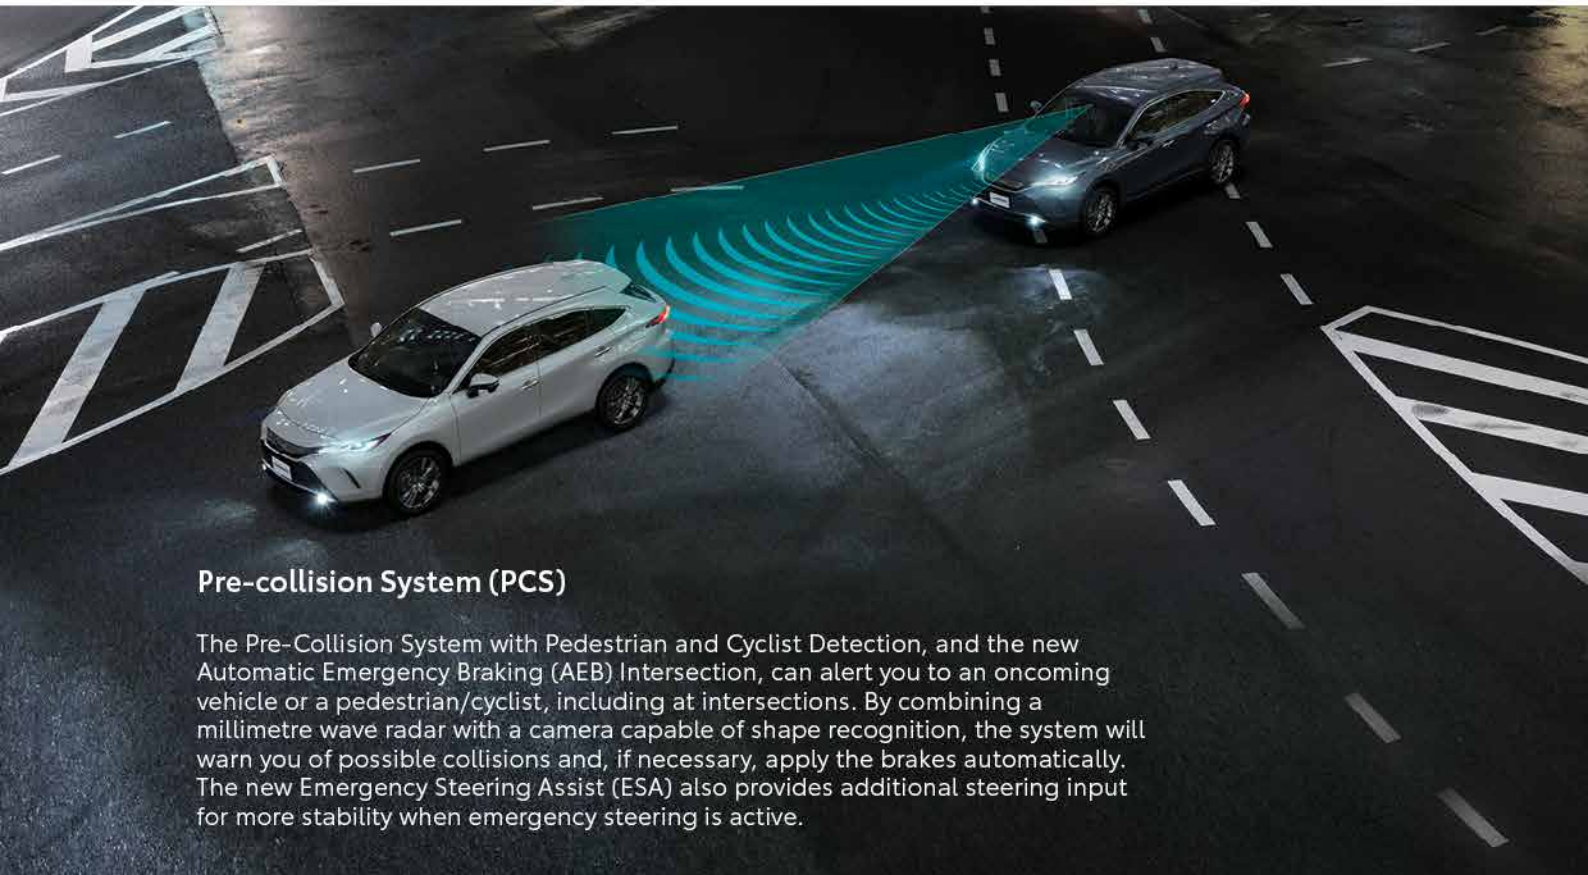

# Safety for All

Every aspect of the Harrier has evolved—including Toyota Safety Sense™ (TSS), an advanced active safety system designed to support the driver in awareness, decision-making, and overall operations—helping to mitigate or prevent collisions, and keeping you and your passengers safe.

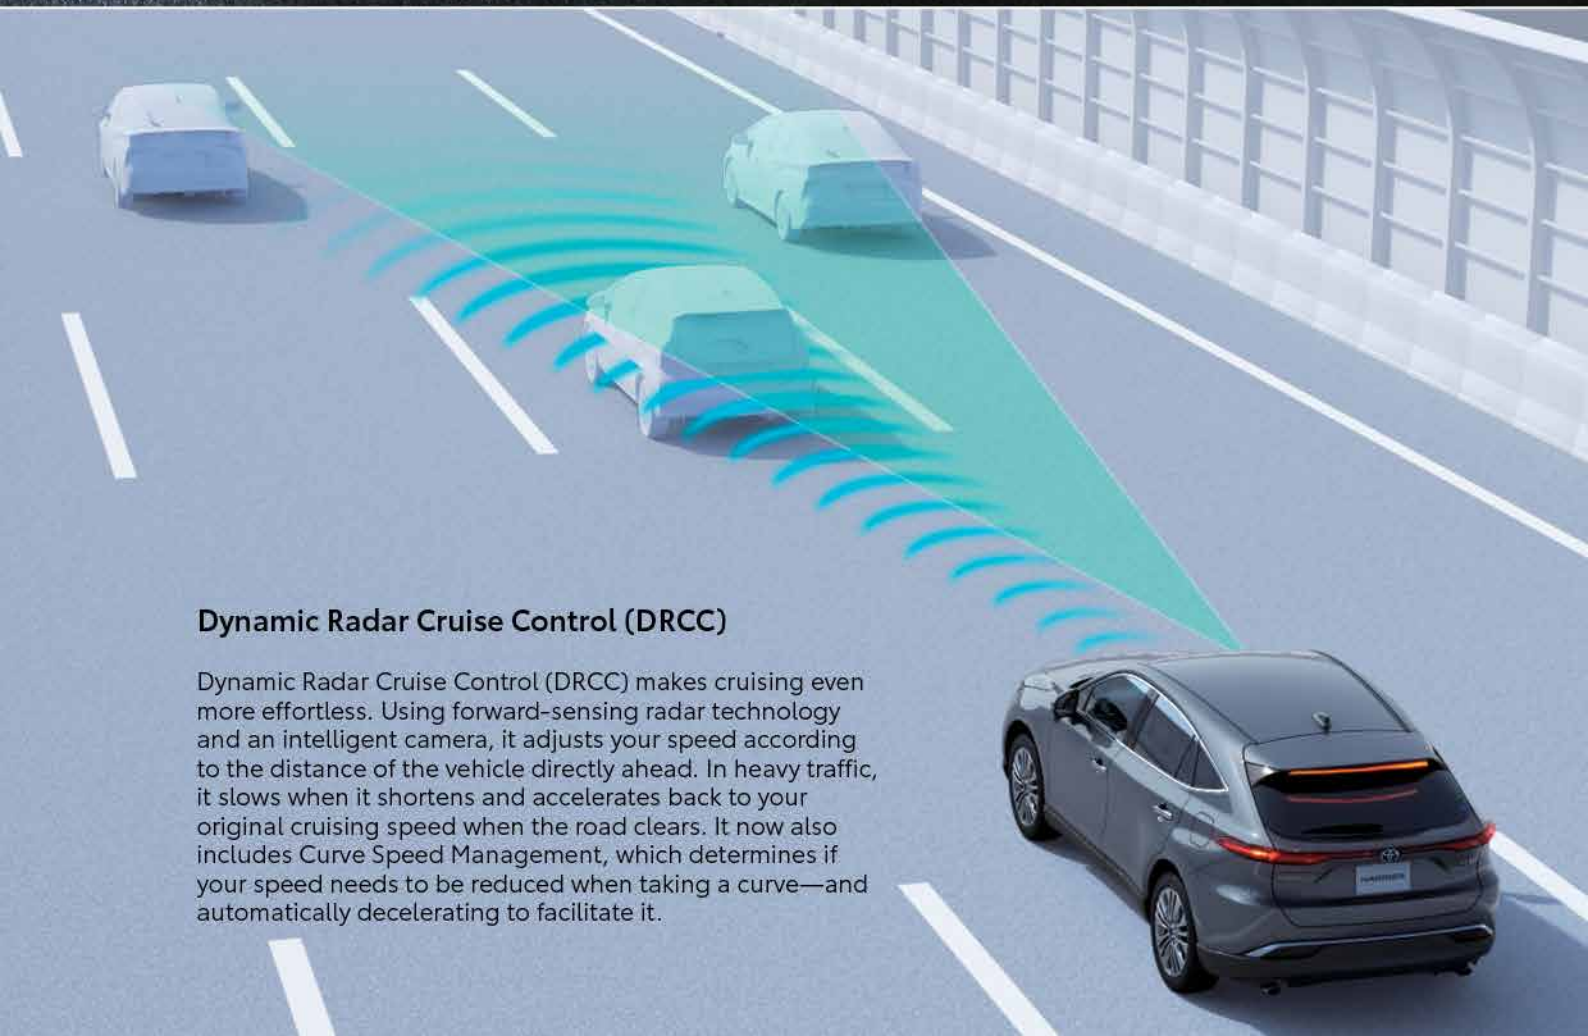

Drivers are responsible for their own safety, and must always drive safely, obey traffic speed limits and laws and focus on the road while driving. Refer to the Owner's Manual for your vehicle to read more information on TSS precautions and limitations.

### Pre-collision System (PCS)

The Pre-Collision System with Pedestrian and Cyclist Detection, and the new Automatic Emergency Braking (AEB) Intersection, can alert you to an oncoming vehicle or a pedestrian/cyclist, including at intersections. By combining a millimetre wave radar with a camera capable of shape recognition, the system will warn you of possible collisions and, if necessary, apply the brakes automatically. The new Emergency Steering Assist (ESA) also provides additional steering input for more stability when emergency steering is active.

### Dynamic Radar Cruise Control (DRCC)

Dynamic Radar Cruise Control (DRCC) makes cruising even more effortless. Using forward-sensing radar technology and an intelligent camera, it adjusts your speed according to the distance of the vehicle directly ahead. In heavy traffic, it slows when it shortens and accelerates back to your original cruising speed when the road clears. It now also includes Curve Speed Management, which determines if your speed needs to be reduced when taking a curve—and automatically decelerating to facilitate it.

## Lane Tracing Assist (LTA)

When Dynamic Radar Cruise Control (DRCC) is enabled and lane markers are visible, Lane Tracing Assist (LTA) uses the lines on the road and the vehicles ahead of you to help keep the car centred and in its lane.

## Adaptive High-Beam System (AHS)

This smart sensor detects the headlights and taillights of cars in front of you, and automatically optimises the headlamp light distribution to ensure you never dazzle other drivers, making driving safer for you and your fellow road users.

## Lane Departure Alert (LDA)

The Lane Departure Alert (LDA) system identifies visible lane markings and detects an inadvertent lane departure. It will then issue both an audible alert and a visual warning, as well as activate the new Steering Wheel Vibration to notify the driver. If the system determines that the driver is not taking corrective steering action, the Steering Assist function is designed to initiate and provide gentle corrective steering to help your car stay in the lane.

# Additional Safety features

## **Blind Spot Monitor with Rear Cross Traffic Alert (RCTA)**

The Harrier's Blind Spot Monitor alerts you to the presence of vehicles that may have entered the blind spot on either side of the vehicle, helping to make lane changes safer. While Rear Cross Traffic alert warns you of approaching cross traffic while backing up.

# Specifications & Features

## DIMENSIONS AND WEIGHTS

		HARRIER HYBRID PREMIUM
Length / Width / Height	mm	4,740 / 1,855 / 1,660
Wheelbase	mm	2,690
Min. Turning Radius	m	5.7
Kerb Weight	kg	1,665
Boot Space	ℓ	396

## ENGINE, MOTOR AND TRANSMISSION

### Performance

Max. Output	kW (hp)	160 (215)
Transmission		CVT
Acceleration	sec	8.1 (0-100km/h)
Top Speed	km/h	180

### Engine

Engine Code / Type		A25A-FXS Dynamic Force 4-Cylinder Inline Engine
Valve Mechanism		16-Valve DOHC VVT-iE (Intake) / VVT-i (Exhaust)
Capacity	cc	2,487
Max. Output	kW (hp) / rpm	131 (176) / 5,700
Max. Torque	Nm / rpm	221 / 5,200

### Motor Generator

Code / Type		3NM AC Synchronous Motor
Max. Output	kW (hp)	88 (118)
Max. Torque	Nm	202
Battery Type		Lithium-ion

## FUEL CONSUMPTION & CO<sub>2</sub> EMISSION

Fuel Efficiency / Consumption (Combined)		21.7km/ℓ [4.6ℓ/100km]
Fuel Tank Capacity		55ℓ
CO <sub>2</sub> Emission (Combined)		106g/km
VES Banding		A2

## CHASSIS / BODY

Aerodynamics		Intergrated Rear Spoiler + Front / Rear Tire Spats + Flat Under Body Cover
Ride Comfort Control		Body Control with Torque Demand
Suspension	Front	MacPherson strut
	Rear	Multi-link
Brakes	Front	Ventilated Disc
	Rear	Solid Disc
Parking Brake		[EPB] Electronic Park Brake with Hold Function
Tyre		18-inch Aluminum: Machine Finish + Black Coating <225/60R18>
